

SPESEW

Industrial Special Sewing Machine

MASTER OUTSOLE STITCHING MACHINE

1. Product Parameter:

Sewing speed: Stepless speed regulating

Sewing thread: Compound thread or linen thread

Stitch length: 3.5-12mm

Sewing thickness: 3-18mm

Sewing needle: 200#230#260#curved hook needle

Motor: 750W/ 220V one-phase 50-60hz

750W/ 110V one-phase 50-60hz

750W/ 380V three-phase 50-60hz

Net weight: 344Kg

Exportation packing gross weight: 402Kg

Exportation packing parameter: 80*86*162(L*W*H)cm

2. Characteristics:

- Suitable for heavy soles and heavy work boots edges suture and right-angle perimeter shoes to penetrate seam processing.
- All parts were manufactured by HAAS CNC machines, high precision machining parts.
- Using electronic speed motor speed can be flexible, stop the needle position by computer control.
- Machines automatic oiling and durable.
